

Health Education Curriculum Planning 2020-21

The purpose the toolkit is to help you plan for the school year by asking key questions. Utilize resources and guidance found on the OAHPERD and other relevant government and professional organizations. The goal of this planning tool is to generate a plan that help you be flexible and prepared for any possible changes that might happen throughout the school year. It is anticipated schools will move throughout the levels of risk and/or instructional formats throughout the year.

1. Health Education General Planning Guide

- A tool that is an overview to many of the considerations for the 2020-21 school year.

2. OAHPERD Health Education Model Curriculum

1. Revisit your local curriculum to align your curriculum to the National Health Education Standards and the health education topics required in Ohio Revised Code
2. Utilize the Content Frameworks and Standards Priority Charts to develop your local scope and sequence.
3. Review your planning guide to ensure your curriculum is aligned and connected to the different instructional formats.

3. Health Education Scope & Sequence

- A tool to map out all of the selected unit/activities across the course offering (Quarter, Semester, Year, etc).
- Special consideration should be given to accommodate each of the instructional formats.

4. Plan units and lessons

- Be sure to develop unit plans and lesson plans that could accommodate each of the instructional formats OR prioritize certain activities that can only take place in certain instructional formats.
- It might be necessary to develop a High, Moderate and Low risk plan for the school year.
